EXTERNAL SELECTIONS

Mortar Joint Profile

Ironed

Ironed joints are very effective at repelling rain penetration due to its recessed profile and the tight seal formed by compacted mortar.

Speak to your sales consultant about additional brick selections, joint types, and to confirm Zone.

Bricks can vary in colour, texture, size, and price. Above are some of our standard bricks, we suggest that you visit our brick supplier PGH Bricks and view the bricks in person as they will look different on a screen.

Standard Colour Chart

Speak to your sales consultant about semi-commercial ranges, window configurations, non-standard colours, and to confirm Zone.

The colour swatches and images shown have been reproduced to represent actual product colours as accurately as possible. However, we recommend checking your chosen colour against an actual sample of the product before purchasing, as varying light conditions and limitations of the printing process may affect colour tones. COLORBOND® and ® colour names are registered trade marks of BlueScope Steel Limited. © 2018 BlueScope Steel Limited

Cladding Options

Cladding Options

Scyon™ Linea™ 180mm weatherboard cladding
a 16mm thick horizontal weatherboard, with deep shadow lines – it's the weatherboard that weathers well. Ideal for that hamptons look.

Primeline™ Heritage weatherboard cladding
features extra shadow lines and a rebated edge and comes in double board height for fast installation.

Primeline™ Newport weatherboard cladding
a smooth, narrow weatherboard. Compatible with the HardieLock™ fixing system.

Axon™ cladding
vertically grooved cladding panel that looks sharp and uniform – it delivers a pristine look that lasts.

Hardie™ Oblique™
Evoke a bold, contemporary aesthetic with the wide grooves and bespoke design flexibility. Square and angled edges cast shadows that bring rhythm and depth to walls.

Matrix™ cladding
an exterior cladding system with a clean, modern, expressed-joint look. Matrix offers a bold industrial aesthetic when an architectural panelised look is desired.

Stria™ Heritage cladding
features deep grooves from the thick shiplap cladding boards, the Stria range is an easy way to get the strong horizontal line details in modern home and townhouse designs.

Easylap™ Panel
a pre-primed fibre cement sheet with a shiplap joint along its two vertical edges.

Hardie™ Fine Texture cladding
pre-textured fibre cement panel. It's durable and lower maintenance than traditional cement render to stay looking good for many years to come.

Hardie™ Brushed Concrete
With the embedded swept texture reminiscent of softly brushed concrete, these fibre cement panels give your home a finish that's visually sophisticated, and dynamic to the touch.

Entry Hinged Door

Your front door sets the impression for what will be revealed upon walking into your home as well as complimenting the style of your façade. Selection can be made from the painted finish Hume Vaucluse range up to \$380 Retail Allowance.

Features:

- Bushfire BAL 12.5 suitable
- Solid core construction engineered for strength and stability
- Optimised design, styling to one side and smooth to the other
- Craftsmanship & high quality materials unite in these beautiful doors

Should you wish to explore further options within the Hume catalogue or prefer an upgrade to a stained finish, your colour consultant can assist.

Garage Sectional Door

For over 45 years, Centurion has been committed to its customers, its people, and its suppliers.

Centurion Garage Doors are designed with your family in mind. We have done 10,000+ hours of research to make your door safer, quieter, and easier to maintain, whilst still delivering a fantastic looking door designed to complement your home.

DESIGNED TO BE QUIET

We're regularly told by our customers, that we manufacture the quietest garage doors on the market. This didn't happen by chance! Our innovative Research and Development team has revolutionised the garage door market and set the benchmark for quietness through numerous patented design features that set our door apart and make it stealthy quiet. Your family is going to love it - and so are your neighbours!

- 1 CLICK AND GO TRACK CURVE**
Centurion's CLICK AND GO TRACK CURVE means fast installation, with quieter operation and greatly reduced maintenance.
- 2 TUFF TRACK**
Centurion's unique TUFF TRACK is up to 50% stronger than normal tracks! This also comes with our factory pressed bracket system for a neat and professional looking installation.
- 3 PIVOT LOCK HINGE**
Our unique patented PIVOT LOCK HINGE system sees the door hinge blocks installed within the door panel in a factory-controlled environment, allowing the hinges to simply be clicked into place during installation in just seconds.

Roofing, Fascia & Gutter

The COLORBOND® steel range of designer colours offers a classic and contemporary palette to enhance the beauty of every home style. Where better to look for inspiration than in Australia's own magnificent backyard. From our mountains to the outback, from creek beds to beaches, COLORBOND® steel captures the light and energy that makes Australia's colours so unique. You'll find 22 colour choices to create the ideal look and feel for your home.

Legend

SA = (Solar Absorptance) is a measure of how much of the sun's heat that a material absorbs. Choosing a colour with a lower SA is a cooler option and may help you meet building regulations such as NCC or BASIX. These are nominal values based on new product and measured in accordance with ASTM E 903-96.

Available in COLORBOND® Ultra steel for coastal and industrial environments. Other colours in the Classic finish may be available on request.

INTERNAL

SELECTIONS

Honeycomb Core Flush

Superior doors with unique high density honeycomb core construction to add that touch of class.

Inspired door designs sometimes are unable to find an elegant solution for your architectural crafted home. Use traditional flush panel doors to support the theme you want without affecting your homes visual appeal.

Pinetrim Plus - Primed

- Clear of defects
- Great workability
- Pre-primed and ready for painting

The mid-level sheen of Dulux Wash&Wear Semi Gloss is a finish that works well on walls or even as an alternative to enamels on doors and skirting boards. 101 Barrier Technology creates a tough, hard wearing barrier that withstands wear and tear.

Features

- 101 Barrier Technology
- Withstands wear and tear
- Low odour & Low VOC at <16g/L tinted & untinted (Volatile Organic Compounds contribute to atmospheric pollution)

Benefits

- Wipe away most common marks, scuffs and stains with a wet cloth
- Looks freshly painted for years
- Exceptional washability

Dulux

While cornice effectively bridges the junctions between walls and ceilings, its purpose extends beyond function, providing the perfect finishing touch to the aesthetic harmony of a home.

Cove cornice has long been the standard cornice choice for Australian home builders. Its functional profile does not detract from common decor style and it is available in three profile sizes (55mm, 75mm and 90mm).

The simple curve of Cove cornice gives it an understated presence throughout the home, allowing other architectural design features to become the hero.

GYPROCK®

Clipsal Iconic® Single GPO 3015H-VW

- Clipsal Iconic is a modern range based on a sleek clean design
- Based around a unique grid design for easy customisation to suit your style
