Brickwork (SA Zone 1)

Mortar Joint Profile

Ironed

Ironed joints are very effective at repelling rain penetration due to its recessed profile and the tight seal formed by compacted mortar.

Speak to your sales consultant about additional brick selections, joint types, and to confirm Zone.

Cladding Options

Scyon™ Linea™ 180mm weatherboard cladding
a 16mm thick horizontal weatherboard, with deep shadow lines – it's the weatherboard that weathers well. Ideal for that hamptons look.

Primeline™ Heritage weatherboard cladding
features extra shadow lines and a rebated edge and comes in double board height for fast installation.

Primeline™ Newport weatherboard cladding
a smooth, narrow weatherboard. Compatible with the HardieLock™ fixing system.

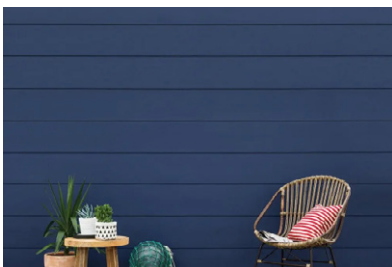

Axon™ cladding
vertically grooved cladding panel that looks sharp and uniform – it delivers a pristine look that lasts.

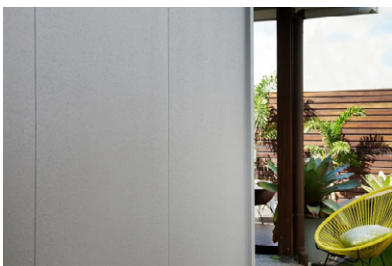

Matrix™ cladding

an exterior cladding system with a clean, modern, expressed-joint look. Matrix offers a bold industrial aesthetic when an architectural panelised look is desired.

Stria™ Heritage cladding

features deep grooves from the thick shiplap cladding boards, the Stria range is an easy way to get the strong horizontal line details in modern home and townhouse designs.

Easylap™ Panel

a pre-primed fibre cement sheet with a shiplap joint along its two vertical edges.

Hardie™ Fine Texture cladding

pre-textured fibre cement panel. It's durable and lower maintenance than traditional cement render to stay looking good for many years to come.

Entry Hinged Door

Your front door sets the impression for what will be revealed upon walking into your home as well as complimenting the style of your façade. Selection can be made from the painted finish Hume Vacluse range up to \$285 Retail Allowance.

Features:

- Bushfire BAL 12.5 suitable
- Solid core construction engineered for strength and stability
- Optimised design, styling to one side and smooth to the other
- Craftsmanship & high quality materials unite in these beautiful doors

Roofing, Fascia and Gutter

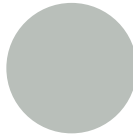

The COLORBOND® steel range of designer colours offers a classic and contemporary palette to enhance the beauty of every home style. Where better to look for inspiration than in Australia's own magnificent backyard. From our mountains to the outback, from creek beds to beaches, COLORBOND® steel captures the light and energy that makes Australia's colours so unique. You'll find 22 colour choices to create the ideal look and feel for your home.

Much of your 'street appeal' is based on your home's colour scheme. That's why it's so important to co-ordinate the colour of your roof, gutters, fascia, and downpipes with your render, bricks, window frames, garage doors and entrance. The COLORBOND® steel palette of 22 colours provides inspiration to create the perfect colour scheme for your entire home.

Legend

SA = (Solar Absorptance) is a measure of how much of the sun's heat that a material absorbs. Choosing a colour with a lower SA is a cooler option and may help you meet building regulations such as NCC or BASIX. These are nominal values based on new product and measured in accordance with ASTM E 903-96.

U Available in COLORBOND® Ultra steel for coastal and industrial environments. Other colours in the Classic finish may be available on request.

- Covered by an in-house warranty service 12 months post install

170575 LEDlux LED White Downlight in Warm White 90mm

Cornice

While cornice effectively bridges the junctions between walls and ceilings, its purpose extends beyond function, providing the perfect finishing touch to the aesthetic harmony of a home.

Cove cornice has long been the standard cornice choice for Australian home builders. Its functional profile does not detract from common decor style and it is available in three profile sizes (55mm, 75mm and 90mm).

The simple curve of Cove cornice gives it an understated presence throughout the home, allowing other architectural design features to become the hero.

The mid-level sheen of Dulux Semi Gloss is a finish that works well on walls or even as an alternative to enamels on doors and skirting boards. 101 Barrier Technology creates a tough, hard wearing barrier that withstands wear and tear.

Features

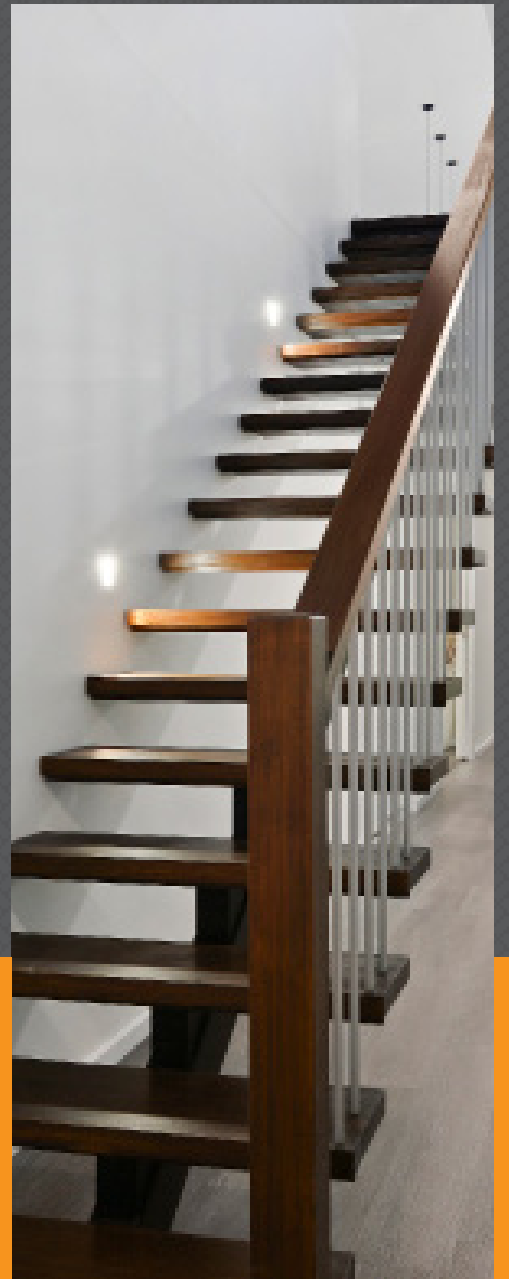

- 101 Barrier Technology
- Withstands wear and tear
- Low odour & Low VOC at <16g/L tinted & untinted
(Volatile Organic Compounds contribute to atmospheric pollution)

Benefits

- Wipe away most common marks, scuffs and stains with a wet cloth
- Looks freshly painted for years
- Exceptional washability
